WELCOME

Alpine Angus has been breeding Angus for over 25 years with a focus on breeding structurally sound, true-to-type genetics with moderate Birth and high growth.

Our cowherd is run in true commercial conditions in the alpine valleys around Myrtleford and on agistment south of Hay, NSW. We take pride in the soundness of our breeding herd, their maternal attributes and their ability to be run under trying conditions. We prefer nature and its vagaries as the best determinant of fertility and ability to perform over genetic prediction models. Our cattle are bred for and run under trying conditions. Spring calves are run on cows on pasture and supplementary fed over Winter, after weaning. Our sale bull team needs to perform and thrive on pasture through Spring before some late feeding prior to the sale.

Sirelines in this year's sale have been selected for their trueness of breed type, capacity, structure and of course growth potential. Selecting bulls to use out of sires and damlines that have positively impacted the Angus breed as a whole is also at the forefront of our

decisions. Many of this years progeny are by sires selected after being viewed on our last USA trip a few years ago.

In selecting bulls to use we are mindful that our genetics are represented in many weaner sales where the equation is simple, breeders are getting paid for weight consistency of the draft and quality while buyers are investing in growth, potential, performance and doing ability.

We aim to introduce the highest performing genetics we can, while adhering to strict parameters around docility, foot quality, structure, capacity and ability to maintain a true Angus type. By continually adding these breed fundamentals and performance into our breeding program, we are building generations of similar production capabilities into our cowherd and thus stacking the pedigrees of our sale bulls with reliable and repeatable genetics.

Our bulls are backed by generations of cattle with strong constitution and structure that have been able to perform in a range of environments. Their EBVs are further influenced by genomics predictions and it's pleasing to see how these have validated our breeding

decisions. We are wary though that these genomic results can be considered similar to entering a chook lotto draw on occasions, with wild variations in an animals EBVs compared to its ancestors. By building pedigrees stacked with generations of repeatable, reliable genetics we are trying to build as much predictability into our genetics as possible. Our goal is to produce bulls that last and breed consistently and true to our principles.

All bulls are independently structurally assessed, semen tested, fully vaccinated and backed by a comprehensive backup and quality assurance service. Unfortunately we don't always get it right, but it isn't through lack of trying. If problems occur, we are more than happy to help and carry spare bulls ready to go should injuries occur. We truly believe that the sale of a bull is not the end of a deal, but the beginning of a relationship with our clients! For After Sales Service, please ring Chris Oswin 0427 562 254.

**All the best,
Jim Delany, Principal
Chris Oswin, Alpine Manager**

SALE INFORMATION

OUR QUALITY ASSURANCE

All Sale bulls must complete the following before being deemed suitable to be offered for sale:

- Semen quality test and physical inspection by Haydn Shipard.
- Independent structural assessment by Ian Moreland from Studcare Genetics.
- All bulls sire verified.
- Performance recorded HBR or APR with Angus Breedplan.
- 7-in-1 vaccination (2 initial and then annually).
- Vibrio vaccination (2 initial and then annually).
- Sale bulls drenched just prior to sale day. Please refer to the NVD.
- Tested PI negative plus Pestiguard vaccination (2 initial and then annually).

ALPINE AFTER SALES SERVICE

As our Quality Assurance program outlined above demonstrates Alpine Angus have made every effort to ensure Alpine Sale Bulls leave Alpine as fully functional bulls ready to go straight to work!

As our many long term clients will vouch for – Alpine Angus have worked hard over 26 years to service our clients however we can – particularly when things go wrong! Depending on the situation and circumstances various solutions may apply including the loan of a bull; a suitable replacement bull or a full or part credit. Our promise is to work with our clients to find the best solution.

***Please contact Alpine Manager Chris Oswin (0427 562 254) if any problems arise as we endeavour to have spare bulls on hand throughout the joining season to assist clients with injury or other issues.**

AUCTIONS PLUS

Videos and details of all sale bulls will be available online on the Auctions Plus and Angus Australia websites. Sale Day there will be a live audio interface on line to allow for off site bidding

GST

All bulls are sold GST exclusive.

TRANSFER OF REGISTRATION

All bulls will be transferred on the Angus Australia Register. If you have an Angus Society prefix, please provide it when registering.

PRE-SALE INSPECTION

Pre-sale Inspection of Sale Bulls available on Sunday, 1 March from 11am–3pm at the Alpine Sales Complex, Rosewhite. Private inspections prior to sale day by appointment are welcomed. Sale Bulls will be yarded by 10am on Sale Day Wednesday 11 March at the Alpine Sales Complex, Rosewhite.

CATERING

Rosewhite CWA will be providing their excellent catering experience! Please come and enjoy the legendary morning tea and beef lunch they turn out!

Coffee provided by:

Sixpence Coffee Roasters, Bright.
www.sixpencecoffee.com.au

OUTSIDE AGENT REBATE FOR BULL SALE

A 5% Rebate will be paid ONLY to those outside agents who ACCOMPANY buyers or – a 2% Rebate will be paid to those who INTRODUCE BUYERS IN WRITING 24 hours prior to the sale.

FREE FREIGHT & DELIVERY

The purchase price paid for bulls includes free delivery by Alpine Angus up to 250km by road from the Alpine Sales Complex. Please note every effort will be made to ensure that delivery will take place within two weeks of sale day. Buyer co-operation in co-ordinating delivery is greatly appreciated. Outside of this we will endeavour to assist in any way we can. If bulls are needed ASAP, please let us know.

GENETIC CONDITIONS AND GENOMICS

All bulls in this catalogue have at a minimum been sire verified and have genomically enhanced EBVs.

DISCLAIMER

Whilst all care and attention has been paid to accuracy in the compilation of this catalogue, neither the vendors, selling agents or representatives thereof assume any responsibility whatsoever for the correctness, use or interpretation of the information on animals included in this sale catalogue.

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

THE ALPINE ANGUS LEGACY

1.

5.

6.

2.

3.

1. ALPINE REAL DEAL R163 CGKR163
FC 6 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5
Top priced bull 2022 Autumn Sale at \$90,000
purchased by Harris Thompson, Ventura Livestock
and Taimate Angus NZ, with semen marketed by ABS.
Deep bodied, high growth & IMF and very sound.
Sons have sold to \$100,000.

2. ALPINE KNOCKOUT Q211 CGKQ211
FC 5 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5
Retained by Alpine Angus Q211 is one of the most
complete bulls we have used. Super thick with
exceptional disposition, scrotal, skeletal design
and foot quality.

3. ALPINE RIP WHEELER R144 CGKR144
FC 6 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5
Main Event son – our top-priced bull in 2021 Spring
Sale, selling to Peter Collins and Luke Graham. Strong,
well-balanced elite combination of Birth, Growth spread
plus high fat cover. Semen sire for Genetics Australia.

4. ALPINE UNDERTAKER U358 CGK23U358
FC 6 / RC 5 / FA 6 / RA 5 / RS 5 / RH 5
Top priced bull from our 2025 Autumn Sale purchased
by Agri Gene, with semen marketed by Agri Gene.
Heavily muscled, super deep Goalkeeper son with
massive Birth to Growth credentials plus big Milk,
Scrotal & Carcase Traits.

5. ALPINE RIGHT TIME V014 CGK24V014
FC 6 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5
Top-priced \$60,000 bull from our 2025 Spring bull sale
purchased by Wes & Ange Jeffery. One of the best
bulls we have bred phenotypically. Exceptionally quiet,
well-balanced bull with incredible growth, body-mass
and structure.

6. ALPINE ELEVATOR M268 CGKM268
FC 6 / RC 5 / FA 5 / RA 5 / RS 5 / RH 4
Top-priced bull at our 2018 Autumn Sale, selling to
Wes Hall, Tasmania. Full ET brother to Alpine Muzza
M245 and Real Deal's grandmother CGKM242, who is
the dam of 4 lots in this sale. Elevator M268 sires
sound, powerful sons with presence including R205
& S049, the next two pictured. Sons have sold to
\$52,000.

7. ALPINE ELEVATOR R205 CGKR205
FC 6 / RC 5 / FA 5 / RA 5 / RS 5 / RH 4
2nd top priced bull from our 2022 Autumn Sale,
selling to Arden Angus, Adelong NSW. Big bodied,
quiet M268 son with tremendous growth, plenty
of fleshing and strong carcase attributes.

8. ALPINE ELEVATOR S049 CGKS049
FC 6 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5
2nd top priced bull from our 2022 Spring Sale selling
to Cascade Angus, Tamworth. Big bodied M268 son
with great thickness.

4.

7.

8.

9.

10.

11.

12.

13.

14.

9. ALPINE GOALKEEPER T230 CGK22T230

FC 6 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5

Top priced bull from our 2024 Autumn Sale purchased by Jack Henshaw, Henshaw Angus Stud. T230 deep bodied Goalkeeper son out of a stout Knockout daughter.

10. ALPINE RICOCHET T591 CGK22T591

FC 6 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5

Massive Growth, long big framed Alpine Ricochet R005 son who topped our 2024 Spring Sale, selling to Chartwell Farms, Romsey.

11. ALPINE QUARTERBACK S431 CGK21S431

FC 6 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5

Top priced bull 2023 Autumn Sale, purchased by Wes Hall, Tasmania. Long-bodied Quarterback son with massive Birth to Growth spread and Carcase credentials. Used in our AI program.

12. ALPINE PABLO S471 CGK21S471

FC 6 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5

One of three top-priced bulls from our 2023 Spring Bull sale, purchased by long-time supporter James Tehan, Wappan Pastoral, Mansfield. Big Growth, moderate Birth Pablos Pulse son.

13. ALPINE 38 SPECIAL 5021 CGKS021

FC 5 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5

This ST Genetics semen sire was our top priced bull from the 2022 Spring Sale at \$120,000 selling to Arkle Angus W.A. 5021 is a strong bodied 38 Special son with excellent structure and EBVs.

14. ALPINE RONALDO R232 CGKR232

FC 5 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5

Super sound, long bodied N542 son with Calving Ease, low Birth and high Carcase credentials. Purchased by Brad Cavanagh, Hardhat Angus with semen marketed by ST Genetics Australia.

15. ALPINE NEXT GEN R272 CGKR272

FC 6 / RC 6 / FA 5 / RA 5 / RS 6 / RH 5

Flush brother to Ronaldo and Rock Solid, this low Birth, heavy bodied sire was one of our high sellers in the 2021 Spring sale selling to Dulverton and Five Star Angus studs, NSW.

16. ALPINE ROCK SOLID R289 CGKR289

FC 6 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5

Purchased by JB Angus as one of our high sellers at the Autumn 2022 sale, Rock Solid rounds off an amazing set of three flush brothers from the incredible breeding female, CGKM152. R289 is now a herd sire at Coonamble Angus, W.A.

15.

16.

THE BULLS BEHIND THE COWS

The sires below have all demonstrated tremendous longevity, having walked cows here at Alpine for multiple seasons and are heavily represented in the cowlines of this sale offering. We've always aimed to purchase high quality, sound functional bulls to run with our cows. Targeting specific siralines out of the best performing cow families from programs of respected breeders has been our strategy. The following is a snapshot of some of the sires we've owned that form the backbone of our cow herd.

1.

5.

6.

2.

3.

1. KAROO MAIN EVENT NENM367

FC 5 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5

Top priced bull from the 2018 Main Event has consistently left us progeny with superior foot quality. Sons have sold to \$70,000 and his daughters are excellent cows with good udders, long clean front and of course excellent structure. His damline extends from one of Karoo's top cows, Doris Y137.

2. LARGO FULL HOUSE

FC 5 / RC 5 / FA 6 / RA 5 / RS 5 / RH 5

This Coonamble Z3 son is one of the best we have used for foot quality and produces daughters that last. Out of the Dream family with grand dam Vermont Dream Y301 (168 progeny) and her daughters being responsible for a variety of Australian record breaking progeny.

3. HAZELDEAN HIGH ROLLER NHZH6

FC 5 / RC 5 / FA 6 / RA 5 / RS 5 / RH 5

An absolute favourite and worked up until 11 years of age. Daughters are docile and feminine. Sire TC Total and damsire LT Bando 9074 are absolute cowmakers. Dam Hazeldean A90 (22 progeny) also the dam of Dunoon herd sire Hazeldean Harlequin.

4. KAROO KNOCKOUT NENK176

FC 6 / RC 6 / FA 5 / RA 5 / RS 5 / RH 5

A Matauri Reality son deep and thick and his daughters are the same. Interestingly his mother and grandmother are both by sons of one of Karoo's best cows in Raff Doris Y137 (63 progeny). Karoo Main Event and the AI sire Karoo Realist are both out of Y137 daughters.

5. STERITA PARK BLACK JACK SPLJ231

FC 6 / RC 6 / FA 5 / RA 5 / RS 5 / RH 5

A half brother to leading USA AI sire Sydgen Trust, Blackjack produced moderate framed high-growth cattle with low mature-cow weights. Damsire of our \$70,000 Rip Wheeler.

6. BOWMONT JACKPOT SRKJ310

FC 5 / RC 5 / FA 6 / RA 5 / RS 5 / RH 5

An Ardrossan Equator A241son, exceptionally sound and a producer of angular, long fronted daughters. Grandam V9 (22 progeny) is the dam of Ardrossan X3 & X15, two top AI sires of their day with a combined 6,000 registered progeny.

7. ALPINE MUZZA CGKM245

FC 5 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5

Part of an incredible flush from Coonamble resulting in Muzza, M268 and Real Deal's Grandmother M242. Dam J15 is one of Coonambles elite producing females from the A61 cow family. Muzza has left us a line of sound, well fleshed, docile daughters.

8. ALPINE ELEVATOR CGKM268

FC 5 / RC 5 / FA 5 / RA 5 / RS 5 / RH 5

Along with his full brother Muzza, these two Elevator sons have left an exceptional line of docile females. M268 topped our bull sale in 2018 and produced multiple high priced sons. He breeds big, strong, powerful cattle and his daughters pack plenty of performance.

* The percentile band represents the distribution of EBVs across the 2024 drop Australian Angus and Angus-influenced seedstock animals analysed in the Mid February 2026 TransTasman Angus Cattle Evaluation

UNDERSTANDING ESTIMATED BREEDING VALUES (EBVs)

Calving Ease/Birth	CEDir	%	Genetic differences in the ability of a sire's calves to be born unassisted from 2 year old heifers.	Higher EBVs indicate fewer calving difficulties in 2 year old heifers.
	CEDtrs	%	Genetic differences in the ability of a sire's daughters to calve unassisted at 2 years of age.	Higher EBVs indicate fewer calving difficulties in 2 year old heifers.
	GL	days	Genetic differences between animals in the length of time from the date of conception to the birth of the calf.	Lower EBVs indicate shorter gestation length.
	BW	kg	Genetic differences between animals in calf weight at birth.	Lower EBVs indicate lighter birth weight.
Growth	200 Day	kg	Genetic differences between animals in live weight at 200 days of age due to genetics for growth.	Higher EBVs indicate heavier live weight.
	400 Day	kg	Genetic differences between animals in live weight at 400 days of age.	Higher EBVs indicate heavier live weight.
	600 Day	kg	Genetic differences between animals in live weight at 600 days of age.	Higher EBVs indicate heavier live weight.
Maternal	MCH	cm	Genetic differences between animals in the height of mature females.	Higher EBVs indicate taller mature females.
	MBC	score	Genetic differences between animals in the body condition of mature females.	Higher EBVs indicate more body condition of mature females.
	MCW	kg	Genetic differences between animals in live weight of cows at 5 years of age.	Higher EBVs indicate heavier mature weight.
	Milk	kg	Genetic differences between animals in live weight at 200 days of age due to the maternal contribution of its dam.	Higher EBVs indicate heavier live weight.
Fertility	DtC	days	Genetic differences between animals in the time from the start of the joining period (i.e. when the female is introduced to a bull) until subsequent calving.	Lower EBVs indicate shorter time to calving.
	SS	cm	Genetic differences between animals in scrotal circumference at 400 days of age.	Higher EBVs indicate larger scrotal circumference.
Carcase	CWT	kg	Genetic differences between animals in hot standard carcase weight at 750 days of age.	Higher EBVs indicate heavier carcase weight.
	EMA	cm ²	Genetic differences between animals in eye muscle area at the 12/13th rib site in a 400 kg carcase.	Higher EBVs indicate larger eye muscle area.
	Rib Fat	mm	Genetic differences between animals in fat depth at the 12/13th rib site in a 400 kg carcase.	Higher EBVs indicate more fat.
	P8 Fat	mm	Genetic differences between animals in fat depth at the P8 rump site in a 400 kg carcase.	Higher EBVs indicate more fat.
	RBV	%	Genetic differences between animals in boned out saleable meat from a 400 kg carcase.	Higher EBVs indicate higher yield.
	IMF	%	Genetic differences between animals in intramuscular fat (marbling) at the 12/13th rib site in a 400 kg carcase.	Higher EBVs indicate more intramuscular fat.
Feed/Temp.	NFI-F	kg/day	Genetic differences between animals in feed intake at a standard weight and rate of weight gain when animals are in a feedlot finishing phase.	Lower EBVs indicate more feed efficiency.
	Doc	%	Genetic differences between animals in temperament.	Higher EBVs indicate better temperament.
Structure	Claw Set	score	Genetic differences in claw set structure (shape and evenness of claws).	Lower EBVs indicate less curl of the claw set.
	Foot Angle	score	Genetic differences in foot angle (strength of pastern, depth of heel).	Lower EBVs indicate more heel depth.
	Leg Angle	score	Genetic differences in rear leg structure when viewed from the side (angle at front of the hock).	Lower EBVs indicate a less angular leg angle.
Selection Index	\$A	\$	Genetic differences between animals in net profitability per cow joined in a typical commercial self replacing herd using Angus bulls. This selection index is not specific to a particular market end-point, but identifies animals that will improve overall net profitability in the majority of commercial, self replacing, grass and grain finishing beef production systems.	Higher selection indexes indicate greater profitability.
	\$D	\$	Genetic differences between animals in net profitability per cow joined in a commercial self replacing herd targeting the domestic supermarket trade. Steers are either finished using pasture, pasture supplemented by grain, or grain (e.g. 50 -70 days) with steers assumed to be slaughtered at 510kg live weight (280kg carcase weight with 12mm P8 fat depth) at 16 months of age.	Higher selection indexes indicate greater profitability.
	\$GN	\$	Genetic differences between animals in net profitability per cow joined in a commercial self replacing herd targeting pasture grown steers with a 250 day feedlot finishing period for the grain fed high quality, highly marbled markets. Steers are assumed to be slaughtered at 800 kg live weight (455 kg carcase weight with 30 mm P8 fat depth) at 24 months of age, with a significant premium for steers that exhibit superior marbling.	Higher selection indexes indicate greater profitability.
	\$GS	\$	Genetic differences between animals in net profitability per cow joined in a commercial self replacing herd targeting pasture finished steers. Steers are assumed to be slaughtered at 650 kg live weight (350 kg carcase weight with 12 mm P8 fat depth) at 22 months of age. Emphasis has been placed on eating quality and tenderness to favour animals that are suited to MSA requirements.	Higher selection indexes indicate greater profitability.

24 SONS BALDRIGE SR GOALKEEPER

IDENTIFIER:
USA19356243

STATUS:
HBR

BIRTHDATE:
07/01/19

- Goalkeeper is a thickset, square bodied sire and has consistently produced docile, deep bodied, high growth cattle while moderating frame.
- He descends from a daughter of one of the USA's most productive females, Baldridge Isabel Y69.
- He has clicked very well with our longer bodied, clean fronted female lines and there are some very good lines of bulls from our leading donors, especially CGKP221 and Main Event daughters.

- Goalkeeper has a very balanced EBV set, sitting top 2% 400 Day Weight, 13% Scrotal, 5% Docility and Eye Muscle Area, and top 10% Angus Breeding Index.

CE-DIR	CE-DTR	GL	BW	200	400	600	MCWT	MILK	DTC	SS	DOC	CWT	EMA	RIB	P8	RBY%	IMF	CLAW	ANGL	LEG	\$A	\$A-L

12 SONS TEHAMA TESTAMENT

IDENTIFIER:
USA20019500

STATUS:
HBR

BIRTHDATE:
12/08/20

- Testament is a consistent producer of sound, balanced, light born cattle with good length.
- We inspected him at Thiel Ranch, South Dakota working cows a few years ago and found him to be an easy fleshing, balanced bull with excellent mobility.
- Both he and his sire Tehama Patriarch (the next reference sire) have a great knack of combining high Calving Ease/Low Birth Weight without sacrificing Growth and performance.

- There is a pretty handy line of sons of his out of Real Deal's dam, CGKP354.
- Testament sits around top 5% of the breed for Calving Ease and combines a low Birth Weight with a 400 Day weight EBV in the top 3rd of the breed, moderate Mature Cow Weight, top 1% Scrotal and Docility, Claw Set and Foot Angles sitting around top 25%.

9 SONS TEHAMA PATRIARCH

IDENTIFIER:
USA18981191

STATUS:
HBR

BIRTHDATE:
03/02/17

- Patriarch is a wonderful producer of long, low Birth, sound cattle with explosive Growth and strong constitution.
- When we saw him in the collection centre were taken with his body, capacity and substance for such an ultra low Birth Wt, breed leading Calving Ease Sire.
- Patriarch has been a high use sire in the USA for a number of years and has sired many sale toppers and is featuring in the pedigrees of many upcoming AI sires.

- Patriarch is a breed leading top 1% Calving Ease bull with an ultra low Birth Wt, top 5% 400 Day Wt, 15% Scrotal & Docility and Claw Set & Foot Angle in top 3rd of the breed.

7 SONS CONNEALY CRAFTSMAN

IDENTIFIER:
USA 20132505

STATUS:
HBR

BIRTHDATE:
13/11/20

- Calves are born strong and grow well, with excellent back ends.
- Craftsman topped the 2021 Spring Connealy Angus Bull Sale for an eye watering US\$500,000. He is a square hipped, strong bodied bull with an excellent combination of Growth, Maternal and Structural traits and is amongst the highest Angus Breeding Index bulls in the breed.
- He was the top sire for Registrations in the USA for 2024 and leads for 2025 also.

- His sire Sitz Resilient dominated USA sales a few years ago. His dam is by Connealy Niobrara, a bull whose daughters have caught our eye the last couple of visits to Connealys.
- Craftsman is one of the highest breed Index bulls in both Australia and the USA, combining moderate Birth with top 15% 400 Day Weight, moderate Mature Cow Weight, 5% Days to Calving, 12% Eye Muscle area and top 15% for Claw Set & Foot Angle.

12 SONS ALPINE REAL DEAL R163

IDENTIFIER:
CGKR163
STATUS:
HBR
BIRTHDATE:
21/07/20

- Real Deal produces upstanding, high Growth calves, with great foot quality and high Carcase credentials.
- Real Deal was the high selling 2023 Autumn Sale bull at \$90,000 and has produced sons selling to \$100,000.
- Real Deal is bred from one of the breeds great cow lines going back to A61 the dominant cow in the Coonamble program and the matriarch of countless stud sires.
- Real Deal is the first calf of P354, a cow that has produced 10 bulls so far to achieve well above sale average

- and is represented in this sale by sons of Testament & S021.
- Real Deal's Grandam M242 was an embryo from Coonamble and her two full Brothers M268 and Alpine Muzza have produced a multitude of big priced and high satisfaction sons.
- Real Deal has an amazing EBV set combining moderate Birth Wt with top 7% 400 Day Wt, 20% Milk, 25% Days to Calving, 10% Scrotal, 30% Docility, 10% EMA & IMF, top 25% Claw Set & Angle and 5% Angus Breeding Index.

8 SONS ALPINE ROCK SOLID R289

IDENTIFIER:
CGKR289
STATUS:
HBR
BIRTHDATE:
22/08/20

- Like Real Deal, R289 is a son of the high Carcase sire Rennyalea N542 out of one of our powerful cows.
- R289 breeds strong bodied, sound cattle with great Growth characteristics.
- He himself is a deep bodied bull, big chested with very good feet. Rock Solid is now working cows at Coonamble Angus after being at JB Angus. He was one of a group of 3 outstanding flush brothers with the other two being the ST Genetics & Heart Angus AI sire Alpine Ranaldo R232 and the Dulverton & Five Star

- herd sire Alpine Next Gen R272.
- His dam M152 descends from the Te Mania Lowan R133 cow line that has produced a number of herd sires and sale toppers for multiple studs. M152 has been a great producer for us so far, with 6 sons averaging over \$30,000 to a top of \$48,000 and we are currently using her next 2 sons, CGK22T150 & CGK22T151.
- Moderate Birth, top 10% 600 Day Wt, 15% Days to Calving, 22% EMA top 15% IMF, 4% Claw Set & 15% Foot Angle.

CE-DIR	CE-DTR	GL	BW	200	400	600	MCWT	MILK	DTC	SS	DOC	CWT	EMA	RIB	P8	RBY%	IMF	CLAW	ANGL	LEG	\$A	\$A-L

5 SONS ALPINE 38 SPECIAL S021

IDENTIFIER:
CGK21S021
STATUS:
HBR
BIRTHDATE:
12/02/21

- S021 is another of these bulls that produces low Birth Weight cattle with exceptionally strong bodies, excellent depth and wide tops.
- He is super good footed, heavy bodied and a real true to type Angus bull.
- His sire Baldridge 38 Special is one of the best we have used for feet and is out of the breed great cow in Baldridge Isabel Y69.
- S021 topped our 2023 Spring Sale at \$120,000 and is out of a great

- footed Coonamble Hector female in M003, whose lineage also goes back to the sire producing cow in Te Mania Lowan R133. M003 is represented by Goalkeeper & Craftsman sons in this sale.
- Most of the S021's in this sale are out of Real Deal's dam, CGKP354.
- S021 combines low Birth with good Growth, moderate Mature Cow Weight, top 10% Scrotal, 15% IMF, top 4% Claw Set and 1% Foot Angle.

5 SONS POSS WINCHESTER

IDENTIFIER:
USA20060473
STATUS:
HBR
BIRTHDATE:
25/01/21

- Winchester is a massive Growth sire, with great docility, long body and strong head.
- He is a high use AI sire in the USA with big carcase credentials in the USA's Expected Progeny Difference (EPD) system, sitting top 1% for Carcase Wt, 2% Marbling and 1% Rib Eye Area.
- Winchester's dam, Poss Blueblood 6502 is one of the elite Angus cows in the USA, producing numerous AI and herd sires, while his sisters are some of the very best females in the

- Poss herd and are also producing sale toppers.
- There is a very even set of Winchester ET sons out of Real Deal's grandam M242, a wonderful cow that goes back to Coonambles leading matron A61.
- Winchester's Growth EBVs are elite, sitting in the top 1% of the breed, combined with top 15% Docility, 1% Carcase Weight, 10% Eye Muscle Area, 40% Claw Set & 25% Foot Angle.

Our 2026 Autumn Sale is headlined by multiple calves from our most prominent donors.

ALPINE LONGSHOT P354

DAM OF LOTS

2, 4, 6, 9, 10, 11, 12, 14, 15, 30

- P354 is an amazing breeding female.
- Her direct damline is backed by an incredible 11 straight generations of leading donors, producing breed impacting sires for Alpine, Coonamble and Te Mania.
- P354 conceived to AI her first three joinings before entering our flushing program.
- P354's first calf, Real Deal, was our \$90,000 high seller in 2022. Her next two natural calves averaged over \$20,000, while six Paratrooper ET brothers averaged \$15,000 in last years sale, including a couple of stud sires. Real Deal is now a popular AI sire with progeny selling to \$100,000.
- Her calves are genuine beef cattle, consistently gentle natured and slick-skinned with high carcase merit.

ALPINE LOWAN M003

DAM OF LOTS

3, 5, 13, 22, 34, 73

- M003 is an excellent footed, heavy bodied female.
- She is by the female record producing sire Coonamble Hector out of a daughter of one of the breeds great cows in Te Mania Lowan R133.
- Before being flushed M003 conceived 5/5 times to AI, plus a first round calving when joined naturally as a first calver giving her the enviable record of six calves in a row, all born between the 11–20 February.
- The structure and foot quality of her calves has been outstanding, highlighted by her record priced bull for us Alpine 38 Special S021 who topped our 2023 Spring bull sale at \$120,000 and is now a herd sire for Arkle Angus, W.A. with semen marketed by ST Genetics.

ALPINE WILCOOLA P221

DAM OF LOTS

17, 18, 19, 20

- P221 is a heavy milking, classical Angus cow with outstanding length.
- She is sired by Sitz Investment 660Z out of a Coonamble Z3 daughter of one of our best cows in Alpine Lowan D18. D18 herself is the dam of multiple herd sires.
- Sitz Investment daughters are genuinely amongst our best females with incredible udders and unrivalled ability to rear heavy calves.
- She conceived 4/4 to AI before being flushed producing outstanding calves, with all being amongst the heaviest of their group. Her first calf, R168 was the heaviest bull we sold out of a first calver that year making \$17,000 while her second was our 2023 Autumn top-seller at \$32,000 to Wes Hall and family, Tasmania.
- She transmits great length of body to her progeny as well as some serious growth potential without going over the top for frame.

Clean fronted Testament here, once again out of P354, a cow with an awesome breeding history. First calf was \$90,000 Real Deal followed the next two years by a couple of bulls in our top handful of weights and prices and last year she had an outstanding line of Paratrooper sons that topped at \$26,000. Great combination of Growth, Days to Calving, Docility, EMA, fat cover & Structure EBVs.

Just like his brothers V231 is nice fronted with a soft, fine skin. Most of our Longshot daughters have lovely, slick coats and P354 definitely passes this trait onto her progeny. V231 is a big scrotal bull with good Birth to Growth, being moderate for Birth, top 4% DTC, 2% Scrotal, high Docility, 20% EMA and very high fats topping at top 2% for Rump Fat.

This Goalkeeper out of P221 is first of a run of 4 flush brothers to be offered. P221 is a great cow with incredible length. Her first two natural calves were amongst our lead bulls and included our 2022 sale topper S431 who sold for \$38,000 to Wes Hall, Tasmania. V304 has always been one of the standout calves of the mob and combines explosive Growth in top 3% of breed with 10% Scrotal, good docility, 4% Carcase Wt & 13% EMA.

Rock Solid over these higher Carcase genetic cows works a treat, providing body and constitution without sacrificing Carcase potential. Added bonus is Rock Solid is backed by an elite producing cow in M152 with 5 of her sons used in stud herds, plus the other few selected by high end commercial operations. High Calving Ease, very low Birth, top 3rd 600 Day Wt, 1% Milk, 5% DTC, 15% EMA & 3% IMF.

So much potential here with this elite numbered Rock Solid son who is double bred to Rennylea N542. Goes back to a couple of other leading Carcase sires in Gatsby and Coonamble Junior and backed by the incredible Lowan R133 cow family. Straight 5s for structure, moderate Birth out to a whopping top 5% for 600 Day Wt, DTC & Scrotal, 15% EMA & top 30% IMF.

BEEF CLASS STRUCTURAL ASSESSMENT

HOW TO USE THE BEEF CLASS STRUCTURAL ASSESSMENT SYSTEM

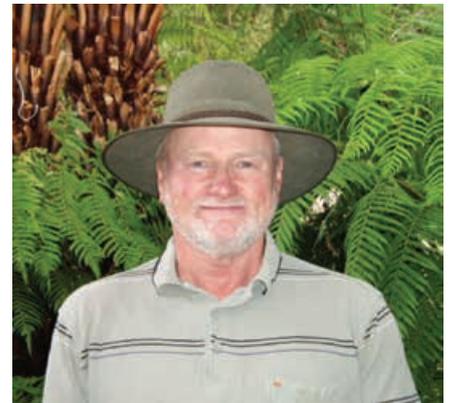

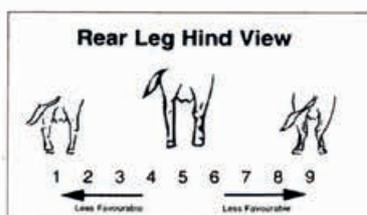

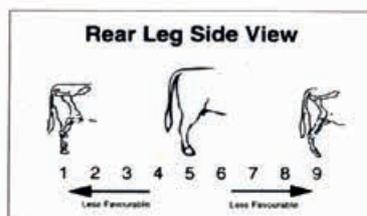

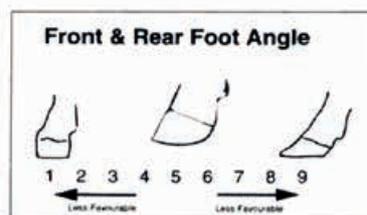

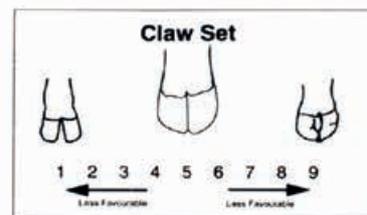

Sale bulls have been independently assessed by Ian Moreland.

The Beef Class Assessment System uses a 1–9 scoring system for feet and leg structure;

- A score of 5 is ideal. (Note: Except for Temperament Score where score of 1 is preferable – refer notes below)
- A score of 4 or 6 shows slight variation from ideal, but this includes most animals. An animal scoring 4 or 6 would be acceptable in any breeding program.
- A score of 3 or 7 shows greater variation but would be acceptable in most commercial programs.
- A score of 2 or lower or 8 & higher are low scoring animals and are culled.

Abbreviations:

FC: Front Claw
 RC: Rear Claw
 FA: Front Foot/Pastern Angle
 RA: Rear Foot/Pastern Angle
 RS: Rear Leg Side View
 RH: Rear leg Hind View

AFTER SALES SERVICE AND MANAGEMENT OF BULLS

BUYING A BULL IS AN INVESTMENT. THIS INVESTMENT SHOULD CONTRIBUTE TO THE GENETICS AND SALE INCOME OF YOUR HERD FOR MANY YEARS. IF YOU ARE TO GET THE MOST FROM YOUR NEW BULL, IT PAYS TO LOOK AFTER HIM WELL, ESPECIALLY IN THE FIRST SEASON OF USE.

OUR QUALITY ASSURANCE

All Sale bulls must complete the following before being deemed suitable to be offered for sale:

- Semen quality test and physical inspection by Haydn Shipard.
- Independent structural assessment by Ian Moreland from Studcare Genetics.
- All bulls sire verified.
- Performance recorded HBR or APR with Angus Breedplan.
- 7 in 1 vaccination (2 initial and then annually).
- Vibrio vaccination (2 initial and then annually).
- Sale bulls drenched just prior to sale day. Please refer to the NVD.
- Pestivirus ear notch test negative PI plus Pestiguard vaccination (2 initial and then annually).

ALPINE AFTER SALES SERVICE

As our Quality Assurance program outlined above demonstrates Alpine Angus have made every effort to ensure Alpine Sale Bulls leave Alpine as fully functional bulls fit and ready to go straight to work!

The sale of a bull we regard as the beginning of a 'relationship' with our clients rather than the end of a 'deal'.

As our many long term clients will attest Alpine Angus have worked hard over 25 years to service our clients however we can – particularly when things go wrong! Depending on the situation and circumstances various solutions may apply including the loan of a bull; a suitable replacement bull or a full or part credit. Our promise is to work with our clients to find the best solution.

***Please contact Alpine Manager Chris Oswin (0427 562 254) if any problems arise as we endeavour to have spare bulls on hand throughout the joining season to assist clients with injury or other issues.**

ARRIVAL OF YOUR NEW BULL

Please bear in mind, when working bulls through the yards, handle them with care.

Preferably work them with other cattle and do not use force. Bulls can become upset and excited in the sale and delivery process. They are subjected to strange yards, different noises, loss of their mates, different people, different handling methods, trucking, unloading, new paddocks and different water and feed. This can upset animals, which are normally very quiet.

When the bull arrives home, unload him at the yards into a group of house cows, steers or herd cows. Never jump the bull from the back of a truck into a paddock. Bulls from different origins should be put into separate yards with other cattle, steers or cows, for company.

Provide hay and water, and then leave the bull alone until the next day.

All bulls should be drenched for worms every six months with a dectin drench.

In addition they may need a drench for fluke if necessary and to be treated for lice. The following annual vaccinations are recommended:

- 7-in-1 vaccine annually.
- vibriosis vaccine annually.
- Pestiguard vaccination annually.

Give particular attention to preventing new bulls bringing vibriosis into a herd. Vibriosis is a sexually transmitted disease that causes infertility and abortions and is most commonly introduced to a clean herd by an infected bull. Vaccinated bulls are free from vibriosis so vaccinating bulls against the disease should be routine practice. All Alpine Angus bulls are vaccinated.

MATING BULLS

For an efficient production system we recommend a 6–8 week joining season.

Newly purchased young bulls should not be multiple joined with older herd bulls. They will not be allowed to work much and in keeping them away from the cows, the older, dominant bull will knock them around.

Use new bulls in either single sire groups or with other young bulls their own age. If a number of young bulls are to be used together, run them together for a few weeks before joining starts. They sort out their pecking order quickly and have few problems later.

Ensure all bulls used are in good condition prior to working – condition score 3 is ideal. Remember bulls that are too light or heavy in condition may have problems with libido and semen production.

Yearling bulls are still growing strongly, so tend to be leaner, carrying less body fat reserves. The condition of the yearling bulls is critical. If they drop below condition score 3, sperm production may be impaired.

Service Ability Testing is recommended on all bulls prior to joining.

All working bulls should be tested or checked before joining for physical soundness, testicular tone and serving ability.

All bulls to be used must be free moving, active and in good store condition. Bulls may need supplementary feeding before the joining season to bring them up to condition score 3. The Australian Association of Cattle Veterinarians (AACV) defines a normal, fertile bull as 'expected to get 90% of 50 normal, cycling, disease-free females pregnant within 9 weeks, and 60% of these should become pregnant in the first three weeks of joining'. This expectation would apply to 2-year-old bulls, but not to younger bulls.

DURING MATING

Whilst generally all goes to plan we believe a proactive approach is best to ensure you get the best result.

We strongly recommend that you keep a close eye on the bulls if possible when joining. Even though we have performed a service ability test and had your bulls independently structurally assessed bulls are animals and things can still go wrong. Check bulls at least twice each week during joining. Get up close to them and see each bull walk; check for swellings around the sheath and for lameness.

Watch them work if possible. A significant number of cows or heifers bulling after 6 weeks of joining may indicate there is a problem. Young bulls are particularly vulnerable in their first season. Common problems that can occur are;

- They may not have built up immunity to IBR (the cattle form of herpes – making it painful to insert the penis).
- or may be more prone to a fever event through the stress of working, new surroundings and establishing their ranking with other bulls. This can render them temporarily infertile for a six week period.
- Problems such as warts on the penis will mean that the bull will need to be attended to.
- Pay particular attention to any sign of abnormal serving problems like 'cork-screw penis'.
